

IMPERIAL

CLASSICAL BRITISH BATHROOMS

MADE IN BRITAIN

A reputation built on tradition

We are a British company with very British values. Situated in Aldridge, a historic town in the heart of England famed for its rich history of clay and brick production, we thrive to keep local craftsmanship alive.

Our team of time-served craftsmen utilise skills passed down by generations to make beautiful bathroom products from wood, clay and other natural materials. For added piece of mind, all of our ceramic ware carries a lifetime quality guarantee, so you can enjoy your new Imperial bathroom suite safe in the knowledge that it will last for many years to come.

MADE IN BRITAIN

Designed and handcrafted in the industrial heartland of England

Our collections are for those who truly recognise British-made quality and individuality when they see it. The kind of hand-crafted perfection that no mere machine alone can truly replicate.

You only need to take a close look at the finish of any piece of Imperial ceramic ware and you'll discover a flawlessly smooth surface beneath layer upon layer of Imperial's brilliant glaze. This level of quality extends across our entire range. From our hand-crafted bathroom furniture, made the traditional way with jointed solid wood, to the reassuring strength and weight of our brassware that's manufactured from cast brass to last a lifetime or longer.

These are just a few examples of the way Imperial is showcasing the very finest British traditions of quality around the world. As for the way our bathrooms look, well, we are delighted to say that they speak for themselves.

THE *Collections*

BY IMPERIAL

Carlyon 08	Baths 204

Carlyon Ceramic Ware

The design theme for our Carlyon Collection is set by the authentic look of the Carlyon ceramic ware. Here, the timeless appeal is gently softened by curved corners and neat styling around the basin interior.

As featured:
Carlyon large basin and pedestal with
the Radcliffe tall mono basin mixer

IMPERIAL

Carlyon large basin and pedestal

The beautifully crisp definition of the moulding details you can see here in Carlyon are one of the hallmarks of fine British ceramic ware by Imperial, reflecting the pride our craftspeople take in every single piece using handworking skills passed down through the generations.

Carlyon medium basin and pedestal

As featured:
Carlyon Large basin stand, Annabel Mirror and Westminster Pendant candle holder

Carlyon Basin Stands

These classic basin stands with elegant legs and exposed waste are a wonderful way to indulge your love of period home styling. To support our Carlyon basin you can choose a stand with either chrome or glass legs.

Carlyon basin stand with glass legs
for use with the Carlyon large basin (see page 35)
h870 w710 d520mm
available in Chrome, Antique Gold or Polished Nickel

Carlyon large basin stand with glass shelf and chrome legs
for use with the Carlyon large basin (see page 35)
h870 w710 d520mm
available in Chrome, Antique Gold or Polished Nickel

Carlyon large basin
(1, 2 or 3 tap holes)

Traditional 'P' trap
available in Chrome, Antique Gold or Polished Nickel

Carlyon large basin stand with glass shelf and chrome legs

Carlyon Thurlestone Furniture

A striking alternative to the traditional ceramic pedestal or basin stand. Thurlestone pieces come in a range of fine solid wood finishes including rich hand-oiled options. We've also married proud tradition with the latest technology by introducing subtle refinements such as soft-close door hinges and mirror options with LED IP44 rated down lighters and anti-mist panels.

As featured:

1200 box mirror with lights, Carlyon Thurlestone offset vanity unit, Carlyon back to wall pan and Lady Margaret bath

Carlyon Thurlestone offset unit in Natural Oak (left hand version shown)

Carlyon Thurlestone offset unit with Natural Oak top and unit in Rosedale White finish (left hand version shown)

The basin is reversible and therefore the tap can be on the left or right hand side

Thurlestone in Natural Oak (left hand hinge shown)

Carlyon Roseland Furniture

Roseland is another elegant expression of the Carlyon Collection's character. In this example the solid oak has been hand-oiled to a soft lustre, an exciting first in bathroom finishes from Imperial. Closer inspection will reveal the further refinement of soft-close drawers.

As featured:

Carlyon Roseland 2 drawer wall-hung vanity unit, Annabel Mirror in the Dark Oak Oiled finish, Westminster brassware, Lady Margret bath and Elizabethan floor tiles in Charcoal

Carlyon Roseland 1 drawer wall-hung vanity unit in Wenge with a Carlyon Large basin

Etoile Ceramic Ware

For Etoile our designers have taken an iconic Victorian basin shape and rounded the corners a little more to provide a smooth and subtle variation on a classic look.

Etoile large basin and pedestal

Choose an Etoile basin in either a large or medium size to suit the proportions of your room. You can then go on to create your own completely distinctive look with the wide selection of brassware, accessories, lighting and mirrors all exclusive to Imperial.

Etoile medium basin and pedestal

Etoile large basin and pedestal

Opulent and unashamedly glamorous, Etoile takes on a dramatically different character in black. Our craftspeople fire each individual piece up to six times, carefully smoothing the surface at each stage to achieve the gleaming, flawless finish only Imperial can achieve.

Etoile large basin

Etoile Basin Stands

If you're looking to conjure a truly authentic period charm in your Etoile bathroom then an Imperial basin stand hand-made in a choice of luxurious finishes will help you achieve it to perfection.

Etoile Canterbury Furniture

Imperial furniture is always recognisable not only by the quality of our solid woods and finishes including hand-oiled oak, but also by our attention to fine detail. Notice how the drawers wrap smoothly around to echo the rounded shape of the Etoile basin.

THE ASTORIA DECO *Collection*

The designers of the 1920s left years of wartime austerity behind them with exuberant new forms and striking colour combinations. Our Astoria Deco Collection is the perfect starting point to create your own personal evocation of the Jazz Age.

Ceramic Collection

Astoria Deco Ceramic Ware

Take the square forms and assertive geometric styling of Astoria Deco as the starting point for your 1920s-inspired styling adventure with exclusive baths, tiles, brassware, accessories and mirrors by Imperial to complete the look.

As featured:
Edwardian brassware, Antique Crackle wall tiles, Linea mirror in Wenge, Linea bath panel, Astoria Deco bath

Astoria Deco basin

Astoria Deco cistern lever

Astoria Deco pedestal feature

A gleaming black finish gives Astoria a special allure, throwing its crisply-defined detailing into even more impressive relief. Firing every piece up to six times to achieve a mirror-like smoothness, only Imperial craftspeople can achieve a deep gloss of this quality.

Astoria Deco large basin and pedestal

Astoria Deco Basin Stands

Nothing evokes a sense of period opulence more than these basin stands hand crafted in brass with a choice of timeless finishes. Shown here is the chrome option with elegantly slim glass legs. Exclusive tiles, radiators, tiling and metal mirrors by Imperial complete an authentic look.

Radcliffe Ceramic Ware

*With its confident lines that flow effortlessly
from basin down into the pedestal, Radcliffe forms
the distinctive heart of this wonderfully inspiring
and varied collection.*

As featured:

Radcliffe large basin and pedestal and Vuella Brassware

Radcliffe large basin and semi-pedestal, wall-hung pan and Linea mirror in White

Radcliffe ceramic ware gives you a variety of beautiful ways to express your individuality.

On the left, for example, wall-hung pieces from the collection allow you to neatly blend traditional and contemporary ideas. Other careful details include authentic period cistern mounting brackets and a choice of either ceramic or chrome joining plates for the high and low level options.

Radcliffe low and high level ceramic plate option

Radcliffe low and high level brass Chrome plate option

Radcliffe medium basin and pedestal, high level cistern and pan and Astoria mirror in Wenge

Radcliffe large basin and pedestal

Fade to black for a very different bathroom mood. Our craftspeople fire these very special Radcliffe pieces up to six times to achieve the deep, glassy finish only Imperial can achieve. Choose from the inspired range of exclusive Imperial brassware, lighting and mirrors to carry through the powerful theme.

Radcliffe Troon basin stand with chrome legs

Radcliffe Basin Stands

With Radcliffe you have many exciting styling options. You can mount a Radcliffe vanity basin on a traditional hand-crafted stand in range of sophisticated finishes (as shown here) or you can opt for a Radcliffe under-counter basin mounted within a period-style console with an opulent top in real Marble, Black Granite or Natural Stone.

Oxford Ceramic Ware

With its high upstand Oxford has a strong period character that is also amazingly versatile thanks to the wide selection of basin styles available. The distinctive look is complemented to perfection by Imperial's own range of brassware, accessories, tiles and mirrors.

MADE IN BRITAIN

Here you can see the square version of the Oxford basin with its classical fluted pedestal and, to suit even the smallest cloakroom, the compact Oxford corner basin. Two more examples of the sheer range of possibilities within Oxford ceramic ware.

Oxford square basin and pedestal

Oxford Basin Stands

Whether you choose the square or rounded version of the Oxford basin, our period stands are a guaranteed way to complete the authentic Victorian look.

As featured:

Firenze Ceramic Ware

To complete your own unique bathroom look simply co-ordinate your Firenze ceramic ware with any of the baths, brassware and accessories in this guide.

As featured:

Firenze large basin and pedestal, westminster bath, Regent brassware and Cambridge accessories

Firenze large basin and pedestal

By including close-coupled, low and high level cistern styles, Firenze can be at home in any bathroom surroundings from the contemporary to the authentically period. The low and high level styles come with the option of either a chrome or ceramic joining plate for an extra touch of hand-crafted distinction.

Firenze Verona Furniture

Elegant bow-fronted units specially designed to mount the large or small Firenze basins. Each piece is traditionally crafted in solid wood with a choice of Wenge, Natural Oak or – a first for Imperial – hand-oiled Oak. Alternatively, pieces can be supplied in a selection of handpainted finishes. Soft-close doors and mirrors with anti-mist panels are a welcome modern touch.

Westminster Ceramic Ware

With the ceramic ware setting a clear styling lead you're then free to add your own unique touches using any of the exclusive Imperial baths, brassware, accessories and mirrors in this guide.

As featured:
Westminster large basin and pedestal, King Charles bath*
*Bath supplied in grey primer all ready to paint

Westminster medium basin and pedestal, high level cistern and pan

Whether you're creating a full bathroom or simple cloakroom, Westminster ceramic ware is versatile enough to fit any setting perfectly. And if you're planning a period-style room with low or high level cistern then you can enjoy the hand-made refinements of authentic cistern brackets and the choice of ceramic or chrome joining plates.

Westminster Basin Stands

Inspired by period console tables, these provide an attractive alternative to pedestal or furniture-mounted basins. You will find basin stands to support our Westminster ceramic basins or you can opt for opulent solid Marble or Granite console tops.

Westminster Victoria Furniture

Victoria complements the period character of Westminster ceramic ware with a charming country house feel, traditionally handcrafted in real wood with a choice of Natural Oak, Wenge or a selection of hand-painted finishes. Soft-close doors are a discreet but welcome addition, as are mirror options with LED downlighters and anti-mist panels.

As featured:

Westminster Victoria vanity unit 2 door in Grey Ecru, Large box mirror in Grey Ecru, Stanlake bath with White feet

Westminster Linea Furniture

The bow fronted style is subtly updated here with slim panels in frosted glass and luxurious soft-close doors. All units are traditionally made in solid wood with a choice of Natural Oak, Wenge or White painted finish.

As featured:

Westminster Linea 2 door vanity unit in Wenge, Linea bath panel in Wenge, Astoria small mirror in White

Westminster Linea 2 door vanity unit in Natural Oak and Saffron mirror in Natural Oak

Bath Painting Service

Imperial is now able to offer our Customers a Bath Painting Service on all of our Primed Cast Iron Baths. The bath (and feet if a cast iron set of feet are selected with the bath) will be painted using both roller and paint brushes and can have up to 4 coats of paint. We can paint your bath to your choice of 170 RAL colours - so when you order please advise your retailer the colour.*

Acrylic Baths Collection

This collection offers a choice of designs to complement our ceramic ware. Panels are available in a range of finishes, including options to echo our bathroom furniture. The acrylic material we use is of exceptional quality and rigidity, and all our baths come with the reassurance of a 20-year performance guarantee.

THE TILE *Collection*

It is impossible to plan your perfect bathroom without including the unrivalled impact of tiles in your design thinking. We offer you no fewer than seven tile collections, each inspired by period decorating styles and designed to give you infinite creative options.

Plaza Wall Tiles

Plaza tiles are all about glamour, an opulent re-imagining of the Golden Era of the 1920s. These make magnificent companion tiles for our Astoria Deco ceramic ware collection – or consider them to create a dramatically retro backdrop for any of our other collections.

Plaza Wall Tiles Options

Plaza raised tiles

White
15x15cm
£60 per box - 0.5m²

Midnight Black
15x15cm
£66 per box - 0.5m²

White
7.5x15cm
£56 per box - 0.5m²

Midnight Black
7.5x15cm
£63 per box - 0.5m²

Plaza flat tiles

White
15x15cm
£56 per box - 0.5m²

Midnight Black
15x15cm
£63 per box - 0.5m²

White
7.5x15cm
£50 per box - 0.5m²

Midnight Black
7.5x15cm
£56 per box - 0.5m²

White dado
5x15cm
£9 each

Midnight Black dado
5x15cm
£9 each

White border
2x15cm
£7 each

Midnight Black border
2x15cm
£7 each

15x15cm tiles
22 tiles per box - 0.5m²
7.5x15cm tiles
44 tiles per box - 0.5m²
Dado
6.5 pcs per linear metre
Border
6.5 pcs per linear metre
All other items are sold individually

Midnight Black raised tiles in 7.5x15 and 15x15 combination

Elizabethan Floor Tiles

Another prestigious effect, this time using a square format in a choice of subtle earthy shades. The highly distinctive detailing is achieved using the small Elizabethan Mosaic feature tiles.

Elizabethan Floor Tile Options

Chalk
30x30cm
per box - 1.35m²

Chalk mosaic
30x30cm
sold by sheet

Octagonal Chalk
20x20cm
per box - 1.16m²

Octagonal mosaic insert Chalk
3.5x3.5cm
sold individually

Charcoal
30x30cm
per box - 1.35m²

Charcoal mosaic
30x30cm
sold by sheet

Octagonal Charcoal
20x20cm
per box - 1.16m²

Octagonal mosaic insert Charcoal
3.5x3.5cm
sold individually

Charcoal/Chalk mosaic
30x30cm
sold by sheet

30x30cm tiles
15 tiles per box - 1.35m²

3.5x3.5cm Inserts
Sold individually

20x20cm tiles
30 tiles per box - 1.16m²

Laying edge-to-edge without joints is strongly discouraged, indeed it is not practicable for exterior applications.

In the case of modular laying of different formats allow for at least 3mm joint widths.

Octagon 20x20cm Chalk tile with Charcoal mosaic insert

Below are some examples of layout combinations using the Elizabethan mosaic tile collection

Elizabethan 30x30cm Chalk tile with a 6.5x30cm Almond insert and 6.5x6.5cm Chalk large insert

Elizabethan Floor Decorative Tiles

Chalk

New England Floor Tiles

Plaza tiles are all about glamour, these elegantly elongated tiles can be laid in a variety of ways to create a highly individual effect. They can be arranged offset, as here, or in the classic square and herringbone patterns you will find over the page.

New England Nero floor tile

New England Floor Tile Options

BRUSHED EXTRUDED PORCELAIN TILES

Technology and tradition combined in an elegant product. With the strength of porcelain and the look of a handmade product, it is highly recommended for residential use.

Champagne
13x52cm
per box - 0.54m²

Emerald Slate
13x52cm
per box - 0.54m²

Chestnut
13x52cm
per box - 0.54m²

Nero
13x52cm
per box - 0.54m²

8 tiles per box - 0.54m²
Suggestions for installation:
This is an artisan extruded material. To get a correct colour blend it is recommended to mix tiles from a few different boxes during installation. A 3mm grout-joint is suggested.

New England Champagne floor tile

Edwardian Wall Tiles

Here is a distinctive way to capture all the essential elements of a period home in a single ceramic tile collection. Skirting, lower wall panelling, dado, border, even the appeal of crisply striped wallpaper – all these influences have been skilfully brought together thanks to the exceptional skills of our expert tile craftsmen.

Edwardian wall tiles 30x60cm

6 tiles per box - 1.08m²

Antique Crackle Wall Tiles

If you are planning a bathroom with an authentic period feel, then this collection will give you the irregular hand-made look and aged patina of tiles first fixed a century or more ago. But, unlike original tiles, these gloriously rich and deep glazes won't stain or discolour as the years go by.

Antique Crackle Wall Tiles Cream Haze and White Linen

Westminster, Regent, Radcliffe
or Stratford, available in Chrome,
Antique Gold or Polished Nickel

INSTALLATION INSTRUCTIONS FOR LIGHTING FIXTURES

IP44 rated wall lamps - information and installation

Important Information Imperial recommends that a qualified electrician should install your lighting.

Lamps have been manufactured with care from quality materials and when installed correctly should give many years of trouble free service. To ensure your complete safety and satisfaction, before commencing any installation please ensure that you have read and fully understood the following instructions. Remember; if you have any doubts about connection please consult a qualified electrician.

IMPORTANT: We recommend that lamps are installed by a qualified electrician in accordance with current IEE wiring and building regulations. These lamps are not suitable for outdoor use.

Resistance to moisture: These lamps have been tested and rated at IP44. When assembled & mounted correctly, they are suitable for use in Bathrooms (Zone 2 and Outside Zone). Correct orientation of the wall lamps is essential to maintain this protection rating and is shown on the label 1.058

WARNING

Switch off electricity supply at fuse box before and during installation and maintenance. We recommend that the circuit fuse or breaker is withdrawn to prevent accidental switching on whilst work is in progress. Light fittings should be protected by a maximum 6 amp fuse / miniature circuit breaker (M.C.B.)

1. Remove the stainless steel mounting plate from the back of the lamp by unscrewing the allen screw in the top edge of the lamp back plate using the allen key provided.

2. Carefully mark the position of the fixing holes for the wall mounting plate in the desired position on the wall ensuring that the plate is the correct way up and not back to front. The wall lamps are quite heavy, and the mounting plate will need to be securely screwed to the wall using suitable fixings for the particular type of wall construction where the lamp is to be installed.

3. Taking great care not to interfere with existing cables or pipework, drill the fixing holes of a suitable size for the screws or fixings you are using.

4. Pass the cables from the wall through the plastic grommet of the mounting plate, and secure the plate to the wall using the screws or other fixings you have chosen. Carefully support the wall lamp, while making the mains connection as below.

5. The wires are coded as follows:

Brown - Live (L)
Blue - Neutral (N)
Green/Yellow - Earth (E) - THESE LAMPS MUST BE EARTHED

6. Connect the mains wires securely to the lamp as indicated above, using only the special terminal block supplied with the lamp. To open the terminal block cover, insert a small flat bladed screwdriver

into both of the small slots on the front of the cover marked with an arrow. Pushing the screwdriver down slightly and levering gently away from the housing will release the two small catches allowing the cover to be opened. When making the connection, ensure that no bare or loose strands of wire are exposed, and that the outer sheath of the supply cable passes through the special grommet into the connector box. Do not disassemble the connections made already from the lamp to the terminal block.

7. Secure the lamp to the mounting plate from the lower edge of the back plate first, sliding the lamp slightly upward to locate the tang on the mounting plate in the slot in the back of the lamp. Once located, bring the top of the lamp backplate toward the wall and secure by tightening the allen screw in the top edge with the allen key provided. Ensure that no wires are trapped when tightening the allen screw.

WATTAGE

Never exceed the maximum wattage as indicated on the bulb holders.

BULB REPLACEMENT

This differs between models: - Follow the directions below for only the model in use. In all cases, switch off the lamp and allow the bulb to cool prior to commencing.

Carlyon Single and Double, Radcliffe Single and Double, Toledo Single and Double: Unscrew the glass shade and replace the bulb with the same type as marked on the bulb holder.

Brokton and Pendant: - Shade and Bulb replacement. Unscrew the domed glass bulb cover complete with shade ring. (This is quite stiff due to its rubber sealing gland). Unscrew and remove the bulb. You can now fit the shade of your choice. With the shade seated on the bulb holder, screw in a new E14 screw cap tube shaped bulb of up to 40 watts maximum. Finally screw the glass bulb cover and shade ring back on to the lamp as a unit (it can easily be re-seated if they have come apart in disassembly).

Cadiz and Avila: Carefully remove the domed frosted glass bulb cover (this is a pull/push fit over the rubber seals at the base of the bulb holder). Unscrew the glass shade if greater access is required and pull out the old bulb. Replace the bulb with a G9 mains voltage halogen bulb of 40 watts maximum taking care not to let the bulb have direct contact with your fingers. Screw the glass shade back on to the lamp and finally push home the domed frosted glass bulb cover ensuring it is over the seals at the bottom of the bulb holder.

CARE OF THIS PRODUCT

Clean only with a dry soft duster. Do not use any proprietary cleaners and polishes, which may have a detrimental effect on the finish.

Complaints made following installation cannot be accepted.

LIGHTING ZONES

Getting it right

Bathrooms need to operate on both a practical and sensory level to tackle the morning rush and evening unwind. Imperial lighting ranges are designed to perform as both task and mood lighting, offering the perfect lighting conditions for bathrooms as well as other rooms in the house.

CUSTOMER CARE AND GUARANTEES

Purchasing, installing and caring for your Imperial bathroom

The Imperial Bathroom Company ("Imperial") recommends that all products are purchased with the assistance of a specialist bathroom retailer and always installed by an experienced installer who is a member of a recognised plumbing association. A list of bathroom retailers is available from our sales office and many retailers who display the Imperial product ranges can offer a complete design and installation service or will be able to recommend a qualified installer.

Imperial's sanitaryware products are produced to the most demanding standards set by any manufacturer in the industry and each piece can be subject to as many as 15 individual quality control checks during production. Notwithstanding the high quality finishes achieved in the Imperial factory, all sanitaryware is subject to the limitations of the ceramic manufacturing process. Unlike machine finished products, natural clay based products shrink and move during firing and because it is not possible to control this process absolutely, minor variations in the dimensional stability of finished products will occur. In most instances this is not noticeable and will have no significant effect upon the installation or the look of the finished bathroom.

Important, please note the following:

(I) Sizes

All sizes quoted in this brochure are nominal. Actual ceramic sizes may vary by + or - 2% against the figures quoted in our technical data.

When planning installations where dimensions are critical it is essential that the space allowed for individual items is physically checked with the products to be installed.

(II) Fitting Basins to Vanity Units

This presents the installer with a common situation where the machine finished vanity unit is designed in order to obtain the optimum fit between the unit and the ceramic basin. Fillets provided on the top edges of the unit are reshaped to accommodate the basin. Once the basin has been fitted in this way it should be bedded onto the unit using silicon sealer to ensure that a watertight seal is achieved.

Semi recessed basins and inset vanity basins must also be sealed between the ceramic surface and the furniture surface using silicon sealer.

(III) Wood Finishes

All natural wood finishes mature with age and colours may vary slightly from batch to batch. It is therefore not always possible to achieve a precise colour match. Imperial's products utilise natural materials and therefore the appearance of the visual properties typical of such materials are to be expected in the finished product.

(IV) Vitreous China

These are extremely hard, non-porous products; but are also brittle and therefore must not be put under stress during installation. Basin waste fittings when over tightened can create stress within the ceramic material which may in time cause the failure of the product. Waste fittings should be carefully bedded in silicon and the back nut hand tightened. One additional quarter turn using a suitable spanner is sufficient to create the required watertight seal.

Care should also be taken when fitting brassware to tap platforms in order to prevent similar stress related failures.

All products should be inspected before installation.

(V) Cistern Flushing

All Imperial WC pans and cisterns flush at 6 litres in compliance with European requirements. Our cisterns and pans are carefully balanced to provide the best possible flush. All of our cisterns are priced to include the flush fitting, levers and flush pipes. These have been carefully selected and tested. We are therefore unable to accept responsibility for poor or non flushing situations where these items have been changed or fitted incorrectly.

(VI) Acrylic Baths

Acrylic bath sizes are nominal and should be checked initially against technical data. For example, baths are often quoted as being 1700mm x 750mm but this can often relate to an actual size such as (for example) 1675mm x 735mm. The final size often depends on the degree of detail incorporated in the design.

All baths should be carefully inspected before installation. When installing a bath with a panel, care should be taken to ensure that the bath is properly supported by the adjustable feet and not by the bath rim. If the bath is being fixed to a wall, ensure that the wall brackets supplied are properly utilised to secure the bath.

A flexible sealer should be used between bath edge and wall as well as between bath edge and panel or plinth. Imperial recommends filling the bath prior to sealing to ensure a secure seal that will withstand the additional loads that a full bath will be subjected to.

(VII) Gold Plating

All items supplied in antique gold finish have been plated in the UK and the quality of gold plating complies with British and European Standards relating to the products concerned.

Gold plated products are easy to look after, but it is important that cleaning instructions are

followed carefully to ensure a long and trouble free life. Please refer to the "Looking after your bathroom" section of our product information for best practices on plated finishes.

(VIII) Furniture

Imperial furniture is produced from a combination of solid wood and real wood veneer panels, and all sizes quoted are nominal and must be checked against actual product. The timber used is supplied from renewable sources and whilst every care is taken in the manufacture of wooden products inevitably there will always be variations in both colour and grain pattern between individual pieces - indeed this is part of the beauty and unique appeal of using a natural material. Where frosted glass is a feature, only toughened safety glass is used.

(IX) Cast Iron Baths

During manufacture a thick coat of powder enamel is fused onto the internal surface of the red hot cast iron. This long established process can however produce ripples, small dimples and specks on the surface which are indeed part of the character and appeal of this type of product - the performance of the bath is however not affected. The outer surface is factory finished to a high standard requiring only the application of a bathroom specified paint. To maintain the appearance, rinse immediately after use and dry with a soft cloth. It is important to clean regularly with a VEA approved (Vitreous Enamel Association) cleaning compound that is applied only with a soft cloth. Dripping taps should be avoided.

(X) Bar Pressures

Poulie, Cisne, Globo, Cou, Niveau, Gioiello, Glace, Notte, Pre, Vuelo, Bec and Lierre products are only suitable for high pressure/pumped water systems (1-3 Bar).

Edwardian, Westminster and crown Lever products are suitable for systems 0.5 Bar. Where these products are to be installed in a high pressure situation it will be necessary to install a pressure reducing valve.

Victorian products are suitable for use in a low pressure situations 0.2 Bar. Where these products are to be installed in a high pressure situation it will be necessary to install a pressure reducing valve.

(XI) Stone / Marble Products

Each marble/granite top has been produced from a solid piece of natural stone and as such, you should expect each piece to be somewhat individual and feature natural grains and small sand holes - this gives each piece its own character and uniqueness and is not a reflection

of poor quality or sub-standard materials or craftsmanship.

(XII) Basin stands

Basin stands are produced by hand and slight imperfections on the surface detail are normal due to the material and the manufacturing process.

(XIII) The Hardwick glass legs

The Hardwick glass legs are manufactured from Borosilicate 3.3 glass, 30mm diameter - Not toughened.

(XIV) Tiles

Tiles have been manufactured from the finest blend of natural materials and glazes, due to the manufacturing processes involved some small deviations in size and shade may occur. In order to obtain the best blend, we recommend taking tiles from a number of boxes on application. To obtain the best appearance, we recommend a minimum 3mm grout line. It is vital to use only waterproof adhesives and grouts.

The 'crackle' glaze used is made to simulate the look of tiles manufactured in the 1920's and 30's. The glaze may continue to further crackle after installation but is a surface finish only and will not affect the structural integrity of the body of the tile.

Imperial recommends the use of a water cooled cutter with diamond blade for cutting.

Design

The substrate must be suitable for the intended use of the flooring especially if intended for heavy loads.

It is essential to provide for the use of expansion joints, especially for large areas.

Before tiling

Lay approximately 3-4 m2 of material on the ground, taking the tiles from different boxes and checking that they comply with the order. Check that the colour, gauge and quality are the same.

Please remember we cannot accept complaints after tiles have been laid. In fitting the tiles the consumer has signified that the products are deemed acceptable in terms of quality and finish.

Tiling

We recommend that an adequate joint is always left between the tiles (minimum 2-3 mm), if necessary be sure to allow for expansion joints for large surfaces.

The tiling criteria must comply with the intended use of the flooring.

The tiles can be laid with either adhesives or cement-based mortar.

If adhesives are to be used, the surface must be perfectly level and prepared to ensure the tiles will be correctly anchored.

Follow the manufacturer's recommendations scrupulously regarding the choice and the application of the adhesive.

When tiling, remember to take tiles from several boxes in order to mix them.

Do not use marker pens to mark where tiles are to be cut, especially if they are permanent markers.

Grouting joints

Only waterproof grouts and adhesives should be used in the fitting of Imperial's tile ranges.

Should you intend to apply a coloured grout, only use pre-packed products; it is important to follow carefully the manufacturer's instructions for use.

We always recommend paying particular attention when grout in a contrast colour is to be used (e.g. pale tiles and dark coloured grouts such as black, dark blue or red). In this instance, it is advisable to test it on some loose tiles first before using it.

We are not liable for tiles that have been stained by coloured grouts, as this problem only occurs if

the grout has not been applied correctly.

Cleaning after tiling

After the tiles have been laid and grouted the floor must be carefully cleaned to remove the calcium-cement residue from grouting. Only clean a small area of 1m² at a time using a phosphoric-hydrochloric acid buffer, scale-remover, which should be correctly diluted in water; then rinse with clean water several times and remove the residue water with a vacuum. A small area should be tested first prior to applying to the entire laid surface. Imperial cannot be held liable for damage sustained to tiled surfaces if this process is not followed.

Protecting the floor during completion work on-site

We recommend protecting the floor, which should be perfectly clean and dry, using sheets of PVC and Airballs to prevent damage to the floor during the completion of any work on-site.

LOOKING AFTER YOUR BATHROOM

The glazed finish of your sanitaryware should be cleaned after use by applying a small amount of non-abrasive cream-type cleaner. Apply using a sponge or damp cloth and rinse thoroughly with clean water. Cleaners containing abrasive materials should be avoided.

All surfaces which are Chrome, Gold or Nickel plated should be cleaned with warm soapy water and dried with a soft cloth. Under no circumstances should bleach, de-scaling solutions, abrasive cleaning products, polishes, or detergent be used on plated surfaces. In particular, should these materials be used on gold plated items it is possible that the surface will be damaged.

Acrylic baths should be cleaned using similar non-abrasive cleaners.

Bathroom furniture, seats and bath panels can be wiped over with a damp cloth and dried with a soft duster.

The use of polishes containing silicon or any abrasive materials can damage the wood finish. Natural wax polishes should be used sparingly and applied using a soft dry cloth.

Stone / Marble - Each piece of stone/marble has been polished but will require regular maintenance with appropriate care and sealant products as this is a natural stone product. Care and installation instructions are supplied with the product but also available on line

Using the right ongoing care products will facilitate the cleaning process and will maintain a fresher appearance of your stone surfaces. We recommend that you re-treat your purchase on a quarterly or six-monthly basis dependant upon use. For very heavy use (restaurants, hotels etc), we recommend even more frequent applications. Stone care products should always be tested as to their effectiveness and their compatibility to the surface in a small, inconspicuous area. All surfaces should be regularly cleaned with a soft, lint-free damp cloth. Marble and other limestones

will be damaged when exposed to acidic substances (cement residue remover, bathroom cleaners, vinegar, ketchup, wine, cola, fruit juices, liquid soap, soap blocks, toothpaste, perfume etc.) - please avoid. For more unusual kinds of dirt and blemishes (e.g. paint, wax, grease, oil, tar, algae, etc.) you should only use special proprietary cleaning products. These are readily available from specialist outlets. For further guidance, we recommend that you contact 'Lithofin' at www.lithofin.co.uk.

MANUFACTURING POLICY

1. The policy of Imperial is one of continuous improvement. We therefore reserve the right to alter or amend specifications/dimensions and prices without notice and to withdraw specific items/colours without notice.
2. Colour reproduction in this brochure is as accurate as the variables in photographic and printing process will allow and specific colours may vary from actual products.
3. Great care is taken to ensure that products supplied by Imperial are supplied to you in perfect condition. Your purchases should, however, be checked for manufacturing defects (or damage) before any installation work is carried out. We are unable to accept responsibility for any defect which was evident before or has occurred as a result of installation.

GUARANTEES (UK AND IRELAND)

All guarantees offered are subject to the products being installed, cleaned and maintained in accordance with Imperial's guidelines. Any deviation from the advised installation methods, care and maintenance recommendations could result in the guarantee becoming invalid.

1. Vitreous china manufactured by Imperial carries a lifetime guarantee against failure caused by manufacturing defects. Products manufactured from Fireclay carry a 10 year guarantee against failure caused by manufacturing defects.
2. Imperial taps and mixers are guaranteed against manufacturing defects for 5 years excluding plated surfaces and replaceable parts which are subject to normal use i.e. washers, ceramic discs and moving parts.
3. Imperial furniture, seats and panels are guaranteed against manufacturing defects for a period of 2 years from installation.
4. Imperial acrylic and cast iron baths carry a 20 year guarantee on manufacturing defects. The Windsor baths carry a 10 year guarantee on manufacturing defects. Imperial will not be liable for any claims relating to fair wear and tear or damage caused by impacts to the bath surface i.e. from shower handsets, bath wastes, toiletries containers etc.
5. All stone and marble products carry a 2 year guarantee against manufacturing defects; no guarantee is offered against staining/discolouration as this is a natural product

6. Tiles carry a 5 year guarantee against manufacturing defects; no guarantee is offered against staining/discolouration.
7. Basin stands carry a 5 year guarantee against manufacturing defects excluding plated finishes.
8. Radiators carry a 2 year guarantee against manufacturing defects excluding plated finishes or electric heating elements.

MAKING A CLAIM

To make a claim under the guarantee the following conditions must be met:

1. Proof of purchase should be supplied at the time of the claim.
2. The product should have been fitted in accordance with Imperial's fixing instructions, current UK Water Regulations and general good plumbing practice.
3. The product should have been used for its sole design purpose and maintained in accordance with Imperial's care instructions. Imperial cannot accept responsibility for the failure of a product if it has been modified, misused, neglected or wilfully or accidentally damaged.
4. Imperial reserves the right to request photographic evidence to support your claims.

Imperial must be given reasonable opportunity to inspect the product in the installed situation. If removed the product should be retained for inspection.

5. Imperial's policy is one of continuous improvement. If the claim under the guarantee is found by Imperial to be valid, Imperial will offer a free replacement of the affected product. If the product has failed under the terms of the guarantee and a replacement is offered, but identical goods are no longer available, Imperial will replace the product with the nearest equivalent.
6. Liability is limited to individual products and does not cover consequential loss or damage on installations.
7. Imperial will not bear costs for repairs or replacements where the product fault is due to the following:
 - Accidental or malicious damage
 - Improper and/or inappropriate use
 - Negligence
 - General wear and tear
 - Damage due to poor installation or servicing
 - Where modifications have been made to the product
 - Where the product has not been used for its sole purpose

This guarantee does not affect your statutory rights.
